Mixed

-

The Mixed screen can display the five sensitivities, namely Dynamic Analysis, Performance Analysis, Gradient, 2D plot, and Head to Head, as well as the Alternative/Objectives Grid in one view.

By default, four sensitivities are displayed as shown below:

	Mixed MANAGE PROJE	стз 📥 D	EFINE PRO		IPUT 🔟 S'	YNTHESIZE	ALLOCATE			🔍 🖸

Expert Choice Comparion® Help Document

Click to select how the sensitivities and/or grid will b	be displayed:
	×
	e

At the top right of each view, click 📰 to replace the current view with another sensitivity or grid. Click 📑 to maximize a single view.

You can also temporarily alter the relationship between the alternatives and their objectives and it will be applied to other sensitivities (if applicable).

After temporarily changing the priority of one or more of the objectives, you can press the C reset icon.
