

Select Participants and Groups

You can display the Alternatives and Objectives priorities in Grids and Charts for one or more participants or groups.

Click  to expand the toolbar options, if collapsed.

Clicking  will open a window displaying the participants and groups of the model as shown below:

Participants and Groups

Search:

	Participant Name	Email Address	Has data?		Group name	Has data?	Select all users with data
<input type="checkbox"/>	Administrator	admin	Yes	<input checked="" type="checkbox"/>	All Participants	Yes	<input type="checkbox"/>
<input type="checkbox"/>	Dave	Dave@expertchoice.com	Yes	<input type="checkbox"/>	<input checked="" type="checkbox"/> C-Level Executives	No	<input type="checkbox"/>
<input type="checkbox"/>	Facilitator	selly@expertchoice.com	Yes	<input type="checkbox"/>	<input checked="" type="checkbox"/> Efficiency Experts	No	<input type="checkbox"/>
<input type="checkbox"/>	John Doe	j.doe@eci.com	Yes				
<input type="checkbox"/>	Kris	Kris@expertchoice.com	Yes				
<input type="checkbox"/>	Marcia	Marcia@expertchoice.com	Yes				
<input type="checkbox"/>	Pete	Pete@expertchoice.com	Yes				
<input type="checkbox"/>	Project Manager	z.bayta@eversun.ph	Yes				
<input type="checkbox"/>	Steve	Steve@expertchoice.com	Yes				

[Select all](#) | [Select All Participants And Groups With Data](#) | [Deselect all](#)

Simply check the checkboxes to the left of the participants and groups you want to display results.

You can select to display all the participants with judgments on a specific group by checking the "Select all users with data" checkbox. You can also show or hide the participants who belong to a group by using the expand/collapsed icon.

	Group name	Has data?	Select all users with data
<input type="checkbox"/>	All Participants	Yes	<input type="checkbox"/>
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> C-Level Executives		
<input type="checkbox"/>	<ul style="list-style-type: none"> • Dave • Steve • Pete 	Yes	<input checked="" type="checkbox"/>

The selected participants and groups are remembered even after closing the model.
