March 16, 2020 | Version 6.0.12.38884

New Feature

Added a "View Logs" page for Workgroup Managers which shows the user logs on the workgroup(s) that the Workgroup Manager belongs to. This is accessible from the user name at the top right, by clicking Manage Workgroups > View logs.

The screenshot shows the user interface for a Project Manager. At the top right, there is a user profile dropdown menu labeled "Project Manager". The menu is open, showing several options: "Manage Models", "Manage Workgroup", "Personal Settings", "Resource Center", "Known Issues", "Send Feedback", and "Logout". The "View Logs" option is highlighted in yellow. Below the menu, there is a "Workgroup:" dropdown menu with "Gamma" selected. Below the menu, there is a table showing user logs.
