# Allowing Pop-ups (Browsers Pop-up Blocker)

There are some places in Comparion where a new window or tab will need to be opened. Browsers often prevent these pop-ups from displaying unless you give permission to do so.

## **Google Chrome**

By default, Google Chrome blocks pop-ups from automatically showing up on your screen. When a pop-up is blocked, the address bar will be marked "Pop-up blocked."

#### Pop-up blocker settings

1. At the top right, click More **Settings**.

2. Under "Privacy and security," click Site settings (Hint: you can type in "pop" on the Search options field)
