Enhancement

- Added Invitation details on Send Invitations > **Groups Specific Links** tab:
 - The generated Group links in this tab are based on what invitation link type is selected from the General links tab. We've added the invitation link type (Anonymous or Signing in and Evaluation, if Signing in link, include the fields), and the assigned permission (see highlighted).

Link	Invitation Link Type	Assigned Permission

Bug Fixes

- Normalization is not being remembered in Synthesize screens.
- The email and password are incorrect in the View Only Evaluation opened by the Project Manager from the Participants screen.
- Filtering and Sorting of Alternatives in 2D Sensitivities are not working correctly.
- The P. Failure (Probability of Failure) column is incorrectly named as Risk on the Alternatives page.
