October 28, 2024 | Version 6.18.5 (Build 20241028.7)

Minor Enhancements

- Added help tooltip when Adding Participants from Active Directory

- Renamed Model Timeline to Participant Evaluation Timeframe

Bug Fixes

- Sample Models fixes:
 - Removed the duplicate Area Validation Sample model
 - Upgraded the .ahps Sample Models
- Fixed issue with Template models where the Participants and Roles menus are hidden
- Fixed the Utility Curve editor where the Curvature label input box looks disabled after editing
- Fixed the copy-paste judgment dialog where the Alternatives list is showing on the Objectives Hierarchy unexpectedly
- Fixed the issue with Direct entry evaluation: When entering judgment using the slider the decimal place is one digit off from the setting. The decimal setting is also applied to the PW graphical evaluation.
