## Add Comparion Sample Models to Workgroup

Comparion offers a variety of Sample Models and **Templates** to help you get started building your model or familiarize yourself with the software

You can also download the **Sample Models** from the **Resource Center**, and upload them to your workgroup using the **Create New Model From File** option.

As a Workgroup Manager, you can add these sample models to your workgroup.

Click your User name > Manage Workgroup > Sample Models Models.

Comparion Sample Models are listed on the left panel and existing models in your workgroup are on the right.

Sample Models that are not yet added to your workgroup are automatically checked as displayed above.

You can select/unselect models as desired. Once done, click 💙

to add the selected to your workgroup.

A dialog pop-out shows the progress. Once all the selected models are uploaded, click OK.

The added Sample Templates will be included on the Models list Models tab.
