

Getting Help

You can view an **In-app help** specific to each Comparison screen by clicking **Help** on the top right of each screen or by navigating our [Full Help Center](#).

The screenshot displays the Expert Choice Comparison interface. At the top, a blue navigation bar contains a 'Help' button, which is highlighted with a red box and a red arrow pointing to it. Below the 'Help' button, a dropdown menu is visible, listing the following options: In-App Help, Release Notes, Known Issues, Contact Us, Resource Center, Wikis, and FAQs. The main content area is titled 'Alternatives' and includes a search bar, a 'Review / Refine Model' link, and a list of actions: 'Add, Edit and Delete Alternatives', 'Sort (Re-order) Alternatives', 'Categorical and Non-categorical Alternative Attributes', and 'Disable Alternatives'. A red arrow points from the 'In-App Help' option in the dropdown menu to the 'Add, Edit and Delete Alternatives' section. Below this section, there is a blue box with the text 'ADD, EDIT AND DELETE ALTERNATIVES'. At the bottom of the page, there is a section titled 'In this page:' with a list of links: 'Add Alternatives', 'Add Alternatives from predefined sets of Alternatives', 'Add Alternatives from Datagrid', 'Delete Alternatives', 'Change Alternatives Color', and 'Non-categorical Attributes'. At the very bottom, there are two links: 'Open in full site' and 'Scroll to Top'.

To submit any feedback and report bugs, please use the **Contact Us** option, which is also accessible from the In-app help:
